Q17. Electronic tools used by patients

Thumbnail of a data table from a CMAA survey report. The table has multiple columns and rows, with a header row containing various categories and numerical data. The text is small and difficult to read, but it appears to be a summary of survey results.

<https://surveys.cma.ca/en/permalink/survey88>

Survey Date: 2019

Full Question: Q17. Which of the following can patients in your practice do?

Topic: Patient care
Electronic records and tools

Keywords: Electronic medical records
EMR
Electronic health record
EHR
Patient notes
Virtual care
Visit
Consult
e-scheduling
Online records
Online prescriptions
email

Response Choices: Request appointments online (i.e. advance access e-scheduling)
Request prescription renewals online
View information from their health record online (e.g. lab test results or immunization history)
Electronically add measurements (e.g. blood pressure readings) to their electronic record
Electronically add text and/or other documentation to their electronic record
Visit with you virtually (i.e. online by video)
Consult with you via email or text message
None of the above
N/A (e.g. hospital practice only)

Q16. Electronic tools used by physicians

<https://surveys.cma.ca/en/permalink/survey103>

Survey Date: 2019

Full Question: Q16. Please indicate which of the following electronic tools you use in the care of your patients

Topic: Patient care
Electronic records and tools

Keywords: Electronic medical records
EMR
Electronic health record
EHR
Patient notes

Response Choices: Reminders for patient care
Ordering lab tests
Ordering diagnostic tests
Receipt of hospital visit and discharge information
Clinical decision support tool
Access to list of medications taken by a patient
Warnings for drug interactions
Interface to pharmacy/pharmacist
Access to lab test/diagnostic results
Referral to other physicians
Secure transfer of patient information
Access to provincial/territorial patient information systems
Interface to non-doctor health professionals
An Artificial Intelligence (AI)
None of the above

The image is a small thumbnail of a data table titled "CMA Physician Workload Survey, 2019, National Results by FP/CP or Other Specialist, Gender, Age, and Provincial/Territory". The table contains multiple columns of data, including demographic information and workload metrics, but the text is too small to read accurately.

Q21 & Q22. Work hours

<https://surveys.cma.ca/en/permalink/survey112>

Survey Date: 2019

Full Question: Q21 & Q22. EXCLUDING ON-CALL ACTIVITIES, how many HOURS IN AN AVERAGE WEEK do you usually spend on the following activities? Assume each activity is mutually exclusive for reporting purposes (i.e., if an activity spans two categories, please report hours in only one category).

Topic: Hours of work and workload
 Access to services
 Patient care
 Practice management (e.g., overhead costs, paperwork)
 On-call activities
 Oncall

Keywords: Workload
 Time
 Oncall

Response Choices: Direct patient care without a teaching component, regardless of setting
 Direct patient care with a teaching component, regardless of setting
 Teaching/Education without direct patient care (contact with students/residents, preparation, marking, evaluations, etc.)
 Indirect patient care (charting, reports, phone calls, meeting patients' family, etc.)
 Health facility committees (academic planning committees)
 Administration (i.e., management of university program, chief of staff, department head, Ministry of Health, etc.)
 Research (including management of research and publications)
 Managing your practice (staff, facility, equipment, etc.)
 Continuing medical education/professional development (courses, reading, videos, tapes, seminars, etc.)
 Other
 TOTAL HOURS WORKED PER WEEK

Documents

The table displays national results for the CMAA Physician Workforce Survey in 2016, categorized by FTEP or other specialty, gender, age, and practice/facility. The data is organized into columns representing different demographic and professional groups.
