

## Q07. Work setting

<https://surveys.cma.ca/en/permalink/survey14>

Survey Date: 2017

Full Question: Q07. Which of the following is your primary work setting?

Topic: Work setting  
Hospital setting

Keywords: Hospital setting  
Practice setting  
Work location  
Work setting

Response Choices: Private office/clinic (excluding free standing walk-in clinics)  
Community clinic/Community health centre  
Free-standing walk-in clinic  
Academic health sciences centre (AHSC)  
Non-AHSC teaching hospital  
Community hospital  
Other hospital  
Emergency department (in community hospital or AHSC)  
Nursing home/ Long term care facility / Seniors' residence  
University  
Research Unit  
Free-standing lab/diagnostic clinic  
Administrative office / Corporate Office

## Q09. Organization of practice (solo, group, etc.)

<https://surveys.cma.ca/en/permalink/survey16>

Survey Date: 2017

Full Question: Q09. How is your MAIN patient care setting organized? Check ONLY ONE. (Note that a solo or group practice could also include another health professional who does not have her/his own caseload).

Topic: Work setting  
Patient care  
Hospital setting  
Collaborative practice

Keywords: Collaborative practice  
Group practice  
Hospital setting  
Interprofessional  
Partner  
Patient care setting  
Practice setting  
Solo practice  
Team practice  
Work setting

Response Choices: Solo practice  
Group practice – community based  
Interprofessional practice – community based (physician(s) & other health professional(s) who have their own caseloads)  
Hospital-based practice

## Q23. Electronic tools used by physicians

<https://surveys.cma.ca/en/permalink/survey32>

Survey Date: 2017

Full Question: Q23. Please indicate which of the following electronic tools you use in the care of your patients:

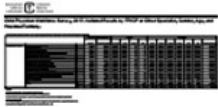

Topic: Patient care  
Electronic records and tools

Keywords: EHR  
Electronic health records  
Electronic medical records  
Electronic tools  
EMR  
Patient care  
Patient notes  
Patient record

Response Choices: Reminders for patient care  
Ordering lab tests  
Ordering diagnostic tests  
Receipt of hospital visit and discharge information  
Clinical decision support tool  
Access to list of medications taken by a patient  
Warnings for drug interactions  
Interface to pharmacy/pharmacist  
Access to lab test/diagnostic results  
Referral to other physicians  
Secure transfer of patient information  
Access to provincial/territorial patient information systems  
Interface to non-doctor health professionals

## Q24. Electronic tools used by patients

<https://surveys.cma.ca/en/permalink/survey33>

Survey Date: 2017

Full Question: Q24. Can patients in your practice do the following?

Topic: Patient care  
Electronic records and tools

Keywords: EHR  
Electronic health records  
Electronic medical records  
Electronic tools  
EMR  
Patient care  
Patient notes  
Patient record

Response Choices: Request appointments online (i.e. advance access e-scheduling)  
Request prescription renewals online  
View information from their health record online (e.g. lab test results or immunization history)  
Electronically add measurements (e.g. blood pressure readings) to their electronic record  
Electronically add text and/or other documentation to their electronic record

## Q12. Impact of national licensure on physician practices

<https://surveys.cma.ca/en/permalink/survey83>

Survey Date: 2019

Full Question: Q12. If a national licensure system were implemented today, how likely would you be to:  
Highly unlikely  
Somewhat unlikely  
Unsure  
Somewhat likely  
Highly likely

Topic: Access to services  
National licensure  
Patient care

Keywords: License  
Licensure  
Changes  
Portability  
Locum  
Virtual care  
Rural practice  
Access

Response Choices: Seek out locum opportunities in other provinces/ territories  
Practise in multiple provinces/territories on an ongoing basis  
Provide virtual care (e.g., telemedicine) to patients in other provinces/territories  
Practise temporarily in rural/remote areas in other provinces/territories  
Participate in further training in another province or territory

## Q17. Electronic tools used by patients

Thumbnail of a survey results table with columns for Province/Territory, Q17, and various response options.

# <https://surveys.cma.ca/en/permalink/survey88>

Survey Date: 2019

Full Question: Q17. Which of the following can patients in your practice do?

Topic: Patient care  
Electronic records and tools

Keywords: Electronic medical records  
EMR  
Electronic health record  
EHR  
Patient notes  
Virtual care  
Visit  
Consult  
e-scheduling  
Online records  
Online prescriptions  
email

Response Choices: Request appointments online (i.e. advance access e-scheduling)  
Request prescription renewals online  
View information from their health record online (e.g. lab test results or immunization history)  
Electronically add measurements (e.g. blood pressure readings) to their electronic record  
Electronically add text and/or other documentation to their electronic record  
Visit with you virtually (i.e. online by video)  
Consult with you via email or text message  
None of the above  
N/A (e.g. hospital practice only)

The image shows a thumbnail of a survey results table. The title is 'CMA Physician Workforce Survey, 2019: National Results by FRCPC or Other Specialist, Gender, Age, and Provincial/Territory'. The table has multiple columns and rows, with a header section and a main data section. The data appears to be organized by province/territory and then by various demographic and professional categories.

## Q16. Electronic tools used by physicians

<https://surveys.cma.ca/en/permalink/survey103>

Survey Date: 2019

Full Question: Q16. Please indicate which of the following electronic tools you use in the care of your patients

Topic: Patient care

Electronic records and tools

Keywords: Electronic medical records

EMR

Electronic health record

EHR

Patient notes

Response Choices: Reminders for patient care

Ordering lab tests

Ordering diagnostic tests

Receipt of hospital visit and discharge information

Clinical decision support tool

Access to list of medications taken by a patient

Warnings for drug interactions

Interface to pharmacy/pharmacist

Access to lab test/diagnostic results

Referral to other physicians

Secure transfer of patient information

Access to provincial/territorial patient information systems

Interface to non-doctor health professionals

An Artificial Intelligence (AI)

None of the above
