The screenshot shows a table with multiple columns and rows of data. The title of the table is "CMAA Physician Satisfaction Survey: 2019 National Results by FTE/SP or Other Specialty, Gender, Age, and Practice Setting". The table contains numerical data points for various categories, likely representing percentages or counts of responses.

Q17. Electronic tools used by patients

<https://surveys.cma.ca/en/permalink/survey88>

Survey Date: 2019

Full Question: Q17. Which of the following can patients in your practice do?

Topic: Patient care

Electronic records and tools

Keywords: Electronic medical records

EMR

Electronic health record

EHR

Patient notes

Virtual care

Visit

Consult

e-scheduling

Online records

Online prescriptions

email

Response Choices: Request appointments online (i.e. advance access e-scheduling)

Request prescription renewals online

View information from their health record online (e.g. lab test results or immunization history)

Electronically add measurements (e.g. blood pressure readings) to their electronic record

Electronically add text and/or other documentation to their electronic record

Visit with you virtually (i.e. online by video)

Consult with you via email or text message

None of the above

N/A (e.g. hospital practice only)
