The image shows a screenshot of a survey results table. The table has multiple columns and rows, with a header row containing various categories. The data is presented in a grid format, likely representing percentages or counts for different demographic groups or practice types. The text is small and difficult to read, but the structure is clear.

Q17. Electronic tools used by patients

<https://surveys.cma.ca/en/permalink/survey88>

Survey Date: 2019

Full Question: Q17. Which of the following can patients in your practice do?

Topic: Patient care
Electronic records and tools

Keywords: Electronic medical records
EMR
Electronic health record
EHR
Patient notes
Virtual care
Visit
Consult
e-scheduling
Online records
Online prescriptions
email

Response Choices: Request appointments online (i.e. advance access e-scheduling)
Request prescription renewals online
View information from their health record online (e.g. lab test results or immunization history)
Electronically add measurements (e.g. blood pressure readings) to their electronic record
Electronically add text and/or other documentation to their electronic record
Visit with you virtually (i.e. online by video)
Consult with you via email or text message
None of the above
N/A (e.g. hospital practice only)
