CMA Physician Workforce Survey 2019

The Canadian Medical Association (CMA) needs your help to develop a health system that best serves Canadians and Canada’s physicians. Tell us about your practice, how you think our health system should be reformed, and what you think are the most critical issues facing physicians today. Your input will help us in setting priorities and developing strategies to address the challenges facing doctors.

Your participation will help us to develop a comprehensive and accurate portrait of the Canadian physician workforce, which will help to inform decision makers and policy makers. The results will be shared with the public and analyzed to identify trends and issues.

Your comments will be treated as confidential. All identifiers will be removed from your responses. Thank you for your participation!

The CMA Workforce Survey 2017

This survey is anonymous and voluntary. Your responses will be kept confidential and will not be linked to you in any way.

Your participation is voluntary and you are not required to answer every question. Thank you for your time and effort.

CMA Physician Workforce Survey - Canadian Medical Association
Q02. Gender
