The Canadian Medical Association (CMA) needs your help to better understand the healthcare system that best serves Canadians and Canada's physicians. Tell us about your experience, then your thoughts on national issues to ensure the effectiveness of Canadian healthcare. The survey takes about 15 minutes and allows you to review, and change, your answers if you wish.

The survey results may be used operationally and summarised in aggregate data and models to help policymakers improve the system.

UP TO 2050: All adult Canadians are expected to gain from the improvements that will result from the CMA’s work. The CMA will work closely with the health professions and the public sector to ensure that the needs of all Canadans are met.

1. In 2050, a minimum of 40% of all Canadians will experience a healthier life, as a result of policies and programs that ensure a healthy and safe environment.

2. In 2050, the average life expectancy will be increased by 10 years, and the incidence of chronic diseases will be reduced by 50%.

3. In 2050, all Canadians will have access to affordable healthcare, with a focus on primary care, preventive care, and health promotion.

4. In 2050, the Canadian healthcare system will be reformed to be more responsive to the needs of patients, more accountable to the public, and more efficient in its use of resources.

5. In 2050, the CMA will have established a new model for professional development and lifelong learning for Canadian physicians.
Q02. Satisfaction (professional life, balance)
https://surveys.cma.ca/link/survey89

SURVEY DATE 2019

FULL QUESTION Q02. Rate your satisfaction with each of the following: Very dissatisfied Dissatisfied Neutral Satisfied Very satisfied

TOPIC Satisfaction

Hours of work and workload

KEYWORDS Work-life balance
doctor satisfaction
Physician satisfaction

RESPONSE CHOICES Your professional life

The balance between your personal and professional commitments
